

# DIS-TRAN Wood Products, LLC

DIS-TRAN Wood Products, LLC has been serving the Utility Industry since 1965. We manufacture wood distribution crossarms, transmission arm assemblies and braces from two locations, Pineville, LA and Vancouver, WA. DIS-TRAN and our Joint Venture Partner, Columbia Vista Corp. are FSC Certified and follow the standards to provide our customers with a product recognized for its environmental responsibility and its superior quality.

Through Columbia Vista Corp., DIS-TRAN Wood Products, LLC in Pineville, LA and Vancouver, WA are FSC certified COC# SW-COC-002444.

DIS-TRAN has taken this step to help in reducing our carbon footprint on the Environment.

DIS-TRAN Wood Products has made a commitment to the environment and to the responsible harvesting practice of our forests. We hope that our customers will appreciate and embrace the FSC commitment to help promote environmentally appropriate, socially beneficial, and economically viable management of the world's forests.

### **What is FSC?**

The Forest Stewardship Council (FSC) is an international organization that brings people together to find solutions which promote responsible stewardship of the world forests.

### **Chain of Custody**

Chain of custody is the path taken by raw materials from the forest to the consumer, including all successive stages of processing, transformation, manufacturing, and distribution. The FSC certification ensures the chain has been followed, and that the product comes from a responsibly managed forest.
